

Message from Prof. Nazir Ahmad Shawl, Kashmir Concern

Due to unavoidable circumstances I am missing a conference which i have been consistently attending. My dear friend Ranjit Singh Sarai has played a phenomenal role in raising the voice for the self determination of all those people who have yet to make a tryst with their destiny. We need to reaffirm our resolve and re-inforce this understanding that self-determination is to be understood and seen as the best conflict preventing strategy. People caught in conflict situation should be allowed to express themselves in a fair and impartial referendum. People's choice and consent is of paramount importance.

- Support referendum for the people of Kashmir as per the UN charter and UN resolutions.
- Support the referendum for an independent Sikh homeland on the basis of referendum.
- I along with all the participants condemn Hinduvta wave of terror in India and Jammu and Kashmir.
- I appeal to support the campaign "Asifa innocence ravaged". Justice for Asifa.

Wishing for a successful conference.
